ANNOUNCEMENT

Transboundary haze – Engagement of Panel Assessors

Further to its announcement of 28 October 2026, Wilmar International Limited ("Wilmar" or the "Company") has today written to the National Environment Agency ("NEA") confirming that it will engage, voluntarily and at its own cost, an investigations firm and a law firm from the Government's panel of assessors, as directed by NEA, to conduct the inquiry into whether the Group has any involvement in or connection with the fires in Indonesia that have contributed to the transboundary haze. Wilmar has confirmed that it will give the assessors access to the information, documents, premises, personnel and sites relating to its operations, corporate relationships and supply chains, and that it is ready to appoint the assessor team and commence work as soon as NEA issues its directions.

Wilmar shares the Government's concern over the impact of the fires and haze and welcomes the opportunity to engage constructively with the relevant authorities and independent assessors. Wilmar reaffirms its commitment to cooperate fully and transparently with the authorities.

The Company will provide further updates as may be necessary, when there are material developments in the matter.
