

NDPE Sugar Refineries

Refineries can also sign up to NDPE Sugar; meaning they commit to the policy principles and agree to share their sourcing information with the NDPE Sugar team. The refinery's sustainability status will depend on the NDPE tiering of the mills it sources from. For more clarification see [system document](#).

We categorize these refineries by their sourcing commitment:

1. NDPE Sugar Refineries: these are 100% supplied by NDPE Sugar mills, and therefore 100% of their output is NDPE Sugar
2. Third Party Refineries are only partially supplied by NDPE Sugar mills, and hence only a portion of their output is NDPE Sugar.

The refinery list published below is part of our commitment to be transparent and will be refreshed regularly with the latest updates.

NOTE TO BUYERS

Buyers who purchase directly from the listed refineries are not permitted to claim or market their products as NDPE Sugar

Any use of the NDPE Sugar claim without formal commitment may be considered a misuse or misrepresentation of the NDPE Sugar programme, and action may be taken where necessary.

Please contact the NDPE Sugar team at wil-ndpesugar@sg.wilmar-intl.com for more information to enquire about the commitment process.

NDPE Sugar Refinery List:
