

Wilmar SA (Pty) Limited, South Africa

Traceability Summary - Supplies January 2024 - December 2024

Refinery Details							
Parent Name	Refinery Name	RSPO Status	Latitude	Longitude	Address		
Wilmar International Ltd	Wilmar SA (Pty) Limited	Yes - MB	-26.164930°	1 27 7 12050°	144 Main Reef Road, Randfontein, Johannesburg, P.O Box 208 1760, South Africa		

Traceability to Mill	Palm	Lauric
Traceable to Mill	100.0%	100.0%
Unknown*	0.0%	0.0%
Traceability to Plantation	Palm	Lauric
Traceable to Plantation	93.8%	94.3%
Unknown	6.2%	5.7%

^{*}Unknown unlisted

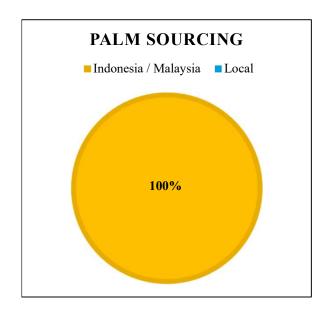

Supplying Wilmar refineries at source

	Wilmar SA
BEO, Bintulu	X
MNA, Kuala Tanjung	Х
PGEO, Lumut	X
WINA, Pelintung	X

Supplying third party refineries at destination

	Wilmar SA
Borneo Edible Oils	X

The charts below represent total volumes of palm products sourced from various origins into South Africa in January 2024 - December 2024

NDPE Implementation Reporting Framework*

Wilmar SA (Pty) Limited, South Africa

Wilmar has made significant improvements, which include transparently reporting progress on the implementation of various supply chain initiatives and activities. However, we also recognize there is a need for a clearer and consistent way to measure and communicate NDPE progress. Hence, since 2019, Wilmar has actively participated in the NDPE Implementation Reporting Framework (IRF), which is led by Proforest.

The IRF categorizes supplier mills into various pre-defined categories of progress, with a primary objective to evaluate the mills along the three respective pillars of Deforestation, Peat and Exploitation. The categorization process involves collection of data related to:

- i. Certification status
- ii. Monitoring and verification systems
- iii. Grievances
- iv. Sourcing information
- v. Progress on own estates and third-party supply

For more information on the NDPE Implementation Reporting Framework, please visit https://ndpeirf.files.wordpress.com/2020/05/ndpe-irf_summary.pdf
