^{*}Considered untraceable

^{***} Indirect mills listed represent mills supplied to Wilmar's third-party refineries, traders and/or bulkers

NDPE Implementation Reporting Framework*

Volac Wilmar Feed Ingredients Sdn Bhd, Malaysia

Wilmar has made significant improvements, which include transparently reporting progress on the implementation of various supply chain initiatives and activities. However, we also recognize there is a need for a clearer and consistent way to measure and communicate NDPE progress. Hence, since 2019, Wilmar has actively participated in the NDPE Implementation Reporting Framework (IRF), which is led by Proforest.

The IRF categorizes supplier mills into various pre-defined categories of progress, with a primary objective to evaluate the mills along the three respective pillars of Deforestation, Peat and Exploitation. The categorization process involves collection of data related to:

- i. Certification status
- ii. Monitoring and verification systems
- iii. Grievances
- iv. Sourcing information
- v. Progress on own estates and third-party supply

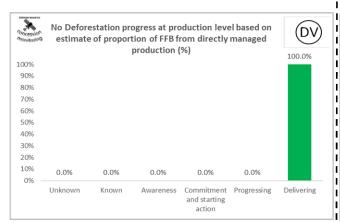

For more information on the NDPE Implementation Reporting Framework, please visit https://ndpeirf.files.wordpress.com/2020/05/ndpe-irf_summary.pdf

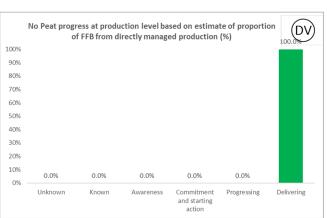

No Deforestation progress at production level based on estimate of proportion of FFB from directly managed production (%)

No Peat progress at production level based on estimate of proportion of FFB from directly managed production (%)
