## **Wilmar Closes Deal on Purchase of Huntsman's European Commodity Surfactants Business**

THE WOODLANDS, TX/ SINGAPORE – Huntsman Corporation (NYSE:HUN) and Wilmar International Limited (SGX: F34) today announced that Wilmar's wholly-owned subsidiary, Wilmar Europe Holdings B.V. has completed the purchase of Huntsman's European commodity surfactants business. Financial details of the agreement were not disclosed.

Under the terms of agreement first announced on April 10, 2014, Huntsman has sold to Wilmar its ethoxylation facility in Lavera, France and Wilmar has entered into a multi-year arrangement to purchase certain sulphated surfactant products from Huntsman's facilities in St. Mihiel, France and Castiglione delle Stiviere, Italy.

In October 2013, Huntsman announced plans to improve its annual EBITDA by \$20 million by exiting a number of commodity surfactant product lines in Europe and to focus on developing and growing the remaining differentiated surfactants businesses. The closure of the Patrica facility and the implementation of other restructuring activities, including the re-focus on differentiated surfactants following the sale to Wilmar, will result in a smaller, more profitable surfactants business for Huntsman in Europe going forward.

Stu Monteith, President of Huntsman Corporation's Performance Products division said: "We are pleased to have completed this sale in line with our original timetable and are very confident that our re-focus on differentiated surfactants will result in a more profitable surfactants business for Huntsman in Europe going forward".

Rahul Kale, Wilmar's Group Head of Oleochemicals & Biofuels, said: "We are pleased with this acquisition which extends our product portfolio and our geographical reach to service our customers better."

#### **About Wilmar:**

Wilmar International Limited, founded in 1991 and headquartered in Singapore, is today Asia's leading agribusiness group. Wilmar is ranked amongst the largest listed companies by market capitalization on the Singapore Exchange. Wilmar's business activities include oil palm cultivation, oilseeds crushing, edible oils refining, sugar milling and refining, specialty fats, oleo chemicals, biodiesel and fertilizers manufacturing and grains processing. At the core of Wilmar's strategy is a resilient integrated agribusiness model that encompasses the entire value chain of the agricultural commodity processing business, from origination and processing to branding, merchandising and distribution of a wide range of agricultural products. It has over 450 manufacturing plants and an extensive distribution network covering China, India, Indonesia and some 50 other countries. The Group is backed by a multinational workforce of about 90,000 people.

Wilmar's portfolio of high quality processed agricultural products is the preferred choice of the food manufacturing industry, as well as the industrial and consumer food businesses. Its consumer-packed products occupy a leading share in its targeted markets. Through scale, integration and the logistical advantages of its business model, Wilmar is able to extract margins at every step of the value chain, thereby reaping operational synergies and cost efficiencies. Wilmar remains a firm advocate of sustainable growth and is committed to its role as a responsible corporate citizen.
