Unknown*	0.0%
Traceability to Mill	100.0%
(includes traceable to plantation)	35.3%

\* Unknown unlisted

### Supplying refineries

	Liverpool, UK
WINA, Gresik	x
WINA, Dumai	x
WINA, Pelintung	x
SEO, Sandakan	x

The chart below represents total volumes of palm products sourced from various origins into Liverpool in January 2021 – December 2021.

Local: products which originate from refineries in Europe.

**NDPE Implementation Reporting Framework\***  
Volac Wilmar Feed Ingredients Ltd. - Liverpool

Volac Wilmar has made significant improvements, which include transparently reporting progress on the implementation of various supply chain initiatives and activities. However, we also recognize there is a need for a clearer and consistent way to measure and communicate NDPE progress. Hence, since 2019, Volac Wilmar, through Wilmar, has actively participated in the NDPE Implementation Reporting Framework (IRF), which is led by Proforest.

The IRF categorizes supplier mills into various pre-defined categories of progress, with a primary objective to evaluate the mills along the three respective pillars of Deforestation, Peat and Exploitation. The categorization process involves collection of data related to:

- i. Certification status
- ii. Monitoring and verification systems
- iii. Grievances
- iv. Sourcing information
- v. Progress on own estates and third-party supply

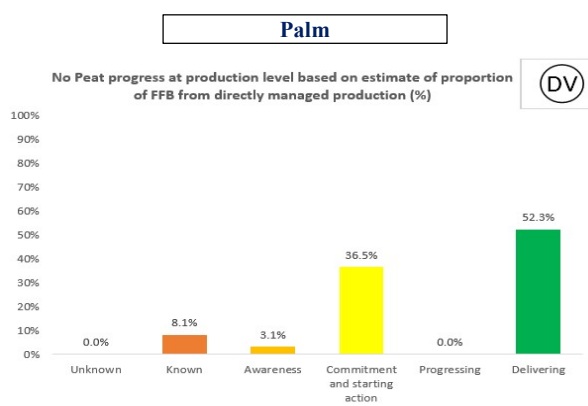

For more information on the NDPE Implementation Reporting Framework:

[https://ndpeirf.files.wordpress.com/2020/05/ndpe-irf\\_summary.pdf](https://ndpeirf.files.wordpress.com/2020/05/ndpe-irf_summary.pdf)

**No Deforestation progress at production level based on estimate of proportion of FFB from directly managed production (%)**

**No Peat progress at production level based on estimate of proportion of FFB from directly managed production (%)**

\*Externally verified by Control Union

\*Olenex reports IRF profiles on an annual basis. These profiles represent data basis FY2021.
